

Pressemeddelelse:
Riggerne ApS, 10.12.2019

Vi er glade og stolte over at kunne meddele, at vi nu er officielt certificeret installatør under Petersen Swaging System Approved Installer Scheme (PAIS) for 2019/20.

Dette er en vigtig milepæl i den fortsatte vækst og succes i vores forretning. At efterstræbe certificering, viser vores engagement i at levere de højeste niveauer af service til vores kunder, og det samme høje niveau af kvalitet i vores arbejde. At opnå godkendelse fra Petersen er et bevis på, at vi lever op til deres strenge standarder, og at vi valser terminaler i overensstemmelse med Petersens godkendte metode til valsning, som er i overensstemmelse med *BS EN 13411-8 Endeafslutninger til stålwirer. Sikkerhed. Valseterminaler og valsning*.

PAIS, der blev grundlagt i 2018, er den eneste certificeringsordning indenfor maritim rigning. I årtier har det engelske firma Petersen Stainless Rigging været førende designer, producent og leverandør af dele i rustfrit stål til rigning. De er markedsleder indenfor kvalitets-komponenter til rigning, og med denne certificeringsordning, kan vi nu levere certificeret valsearbejde.

Vi ser frem til at kunne tilbyde dig en række fordele:

- Installatøren er uddannet af producenten: Det betyder, at din opgave er i hænderne på mest kyndige mennesker
- Godkendt metode: Petersen-metoden er i overensstemmelse med *BS EN 13411-8 Endeafslutninger for stålwirer. Sikkerhed. Valseterminaler og valsning*, og at de godkendte installatører følger denne standardiserede proces for at levere en konsekvent og pålideligt resultat.
- Originale dele: Petersen fittings er fremstillet efter nøjagtige standarder, og lever op til ISO 9001 kvalitetssystem, og er også certificeret til den meget strengere luftfartsindustri standard AS 9100.
- Fuld sporbarhed: Alt udstyr og alle dele kan spores og arbejdet kan verificeres, og installatøren, der laver din wire, har en gyldig uddannelse.
- Kalibreret udstyr: Du kan stole på, at din opgave er lavet nøjagtigt og konsekvent.
- Årlig kontrol: Du kan stole på at vi opfylder Petersens brancheførende standarder, da vi årligt kontrolleres af en ekstern ekspert.

Press release

We are pleased and proud to announce that we now are an officially Approved Installer for 2019/20 under the Petersen Swaging System Approved Installer Scheme (PAIS).

This is an important milestone in the continuing growth and success of our business. Pursuing accreditation shows our commitment to providing the highest levels of service to our customers, and the same high level of quality in our work. Achieving accreditation from Petersen is proof that we meet their rigorous standards, and install swaged fittings in

accordance with the Petersen Approved Method of Swaging, which complies with *BS EN 13411-8 Terminations for steel wire ropes. Safety. Swage terminals and swaging.*

PAIS, founded in 2018, is the only approval scheme for the marine rigging industry. For decades, Petersen Stainless Rigging has been a leading designer, manufacturer and supplier of stainless steel rigging hardware solutions. They have led the market in quality rigging components, and are now serving as an advocate for the provision of controlled and consistent swaged work through the development of their approval scheme.

We look forward to bringing you a range of benefits:

- **Manufacturer-trained installer:** That means your job is in the hands of the most knowledgeable people
- **Approved method:** The Petersen method complies with *BS EN 13411-8 Terminations for steel wire ropes. Safety. Swage terminals and swaging* and approved installers follow this standardised process to deliver a consistently reliable outcome.
- **Genuine parts:** Petersen fittings are manufactured to exacting standards – they operate to an ISO 9001 quality system and are also certified to the much more stringent aerospace industry standard AS 9100.
- **Full traceability:** Reassurance that equipment and parts can be traced and work can be verified, and that the installer working on your job holds valid training.
- **Calibrated equipment:** Confidence that your job has been completed accurately and consistently.
- **Annual audits:** Peace of mind that your installer is externally audited by a swaging expert to ensure they meet Petersen's industry-leading standards.
